

# SCHMOLZ + BICKENBACH

Comprehensive range of  
stainless steel solutions

## Our star products dedicated to the most stringent markets

### Aerospace

- » AERODUR®, UGI® AIR for the requested cleanliness in stainless steel

### Automotive:

- » UGIMA® and NIRO-CUT® improved machinability grades
- » EXHAUST® F1, ferritic welding wire for exhaust lines
- » MAGNADUR®, ACIDUR®, CORRODUR® and ELECTRODUR® 4105 range of stainless steel
- » UGIPERM® with optimized magnetic properties
- » UGIPURE® for high-performance springs
- » UGIWELD® for optimized results in welding

### Medical

- » ACIDUR® 4441, UGIPURE® 4441, for implantable medical devices
- » CORRODUR® 4021, UGI® 4197, UGI® 4542 martensitic and austenitic steels for ancillary products and surgical instruments
- » Metallic powder steel products

### Mining

- » UGICHROM® hard chromium plated bars for hydraulic systems

### Electronics

- » Ultra fine wires from Sprint Metal

### Architecture Building and Construction

- » ACIDUR® 4362, UGIGRIP® stainless steel rebars
- » UGISHAPE® for architectural applications

### Mechanical Engineering

- » UGICHROM® hard chromium plated bars for piston rod applications
- » UGIMA®, NIRO-CUT® for improved machinability
- » UGIPLEX® for a full range of duplex grades

### Oil & Gas

- » UGI® 4418, UGI® 4542, ACIDUR® 4418 mod., ACIDUR® 4542, ACIDUR® 4501 acid resistant steel
- » CORRODUR® 4006, CORRODUR® 4021 corrosion resistant steel
- » MAGNADUR® 501, CORRODUR® 601 nonmagnetic steel for multidirectional drilling
- » UGISHAPE® simple to highly complex shaped wires for filtration applications
- » UGIALLOY® nickel alloy for welding wires and drawn wires

### Food industry

- » ACIDUR® 4404, ACIDUR® 4462, ACIDUR® 4521 for water management
- » ACIDUR® 4460, ACIDUR® 4462 for fishing industry

### Marine

- » Long bars for propeller shafts
- » PYRODUR® 4718 for marine valves

*Our steels satisfy the highest technical requirements such as extreme resistance to corrosion, mechanical load, high strength, strain values and very high thermal resistance.*

## SCHMOLZ + BICKENBACH Group

---

The SCHMOLZ + BICKENBACH Group is fully integrated, from melting to worldwide distribution including hot rolling, cold processing and forging.

This is why we can guarantee the highest quality level and a complete traceability all along the production, processing and distribution. Deutsche Edelstahlwerke and Ugitech, our state of the art production plants rank among the leading manufacturers of stainless steel and acid- and heat-resistant steels in the world with the most innovating production technologies and the most powerful R&D centers for stainless steel long products.

### **Corporate culture**

**Thanks to our technical expertise, innovativeness and our worldwide service centers , we are the benchmark for special steel solutions.**

Considering our customers as partners allows us to understand their needs and act flexibly to meet their expectations. Striving for excellence, we continuously improve our production technologies, our worldwide distribution network and our product portfolio.

Because we believe our people are our greatest asset, we value our employees protecting them with the highest safety standards. We put emphasis on constantly reducing environmental impact through a continuous development of processes dedicated to the following environmental matters: air pollution, energy efficiency, recycling, climate, and waste of water.

We value our competences expanding our skills and experience to embrace the market changes. Being customer oriented, we proactively cooperate with our customers to meet their needs and expectations. Our entrepreneurship spirit is what drives us to achieve performances in offering tailor made special steel solutions. We are dedicated to bring the most technical products on the market, this is why innovation is a group corner-stone.

### **Sales & Services division, being close to our customers, worldwide, at all times**

With more than 70 locations in 30 countries, our global presence gives us the opportunity to deliver our high-tech products to your doorstep and allows us to become your reliable local partner providing technical support, processing work such as cutting and chamfering, and just-in-time deliveries. Such a service approach based on our state-of-the-art product range leads to long lasting relations with our customers who value us as partners in their development.

Our grade range is very large, we count around 300 grades in our offering, this is why you can contact us for any special need you require in your development and your innovation processes.

# Our stainless, acid and heat-resistant steel grades

- » From 1 meter diameter forged bars to ultra fine wires of 13 microns, we offer more than 300 grades dedicated to the most specific applications. We are covering all the stainless steel families: austenitic, ferritic, martensitic and duplex grades including high machinability versions (UGIMA® and NIRO-CUT®), heat-resistant steel, creep-resistant steel, non-magnetic and magnetic steel.
- » Thanks to the our state of the art Research and Development centers, we can also work in collaboration with our customers to develop new products for special steel needs.
